Your composite draft of paragraphs 15-21 of <sup>in</sup>ie-32 suits me to a model

T. Now one else I called had finished it, but I don't think they're going to

STATINTL

have any important objections.  will probably send some suggestions down

STATINTL

to you.  probably are too busy to give it a careful reading,

but I think they'll agree without trouble. Anyhow, from my conversations, I

don't see any reason why you shouldn't go ahead and get this ready for the

Board---think you said they ought to have it at least tomorrow morning---this

25X1

afternoon,  and I don't think there'll be any opposition

from the team.

My suggestion for the conclusions would be to substitute the last paragraph  
20, your draft (omitting words "in view of all these considerations") for  
conclusion 6 of the original.
